

Wind Powered Cars!

S.T.E.A.M CHALLENGE: To design and build a wind powered car using every day supplies.

Post Challenge Reflection:

1. Explain how you ended up creating your car.
2. How far did your car travel? (Measure in centimeters)
3. How long did it take your car to travel 50 centimeters?
4. How can you find out how long it will take your car to travel 100 meters?
5. What worked well during the challenge? What challenges did you face? For next time, how would you improve your design?

Draw your final design.
