Our after-school program for the lower division (N-6) runs weekdays from 3:00-6:00 p.m. and includes snack time, homework help, indoor/outdoor play, organized games, crafts, clubs and special events. The program structure is flexible, so you can arrange an after-school plan that meets your family's needs.

## 7<sup>th</sup> and 8<sup>th</sup> Grade

Garden School has a program for 7<sup>th</sup> and 8<sup>th</sup> graders. The After-School Program operates every school day from 3:00-6:00 p.m. to offer homework support and structured activities, including cards, board games, support for sports teams, and free play in the gym or field.

Students who choose to remain at school after 3:00 p.m. and who are not in extra help with a teacher, in a club, on a team, or attending a Foundations course are automatically enrolled in the After-School Program and billed at the daily rate.

## After-School Program Rates

### Per Hour/Day Rates:

- Until 4:00 p.m.: \$20
- Until 5:00 p.m.: \$25
- Until 6:00 p.m.: \$35

- All parents/guardians must sign the student out in the After-School book. Students are not permitted to wait outside.
- All Foundations classes are subject to cancellation if they do not receive minimum enrollment.
- Any student who is deemed by the teacher or the After-School Coordinator to be a disturbance in a Foundations class will be asked to leave the class and refunds will not be given.

## Class Descriptions

### Acrobatics

Build strength and flexibility through exercises, learn basic tumbling and gymnastics, and put all that together with dance to create an acrobatics routine you'll want to break into every chance you get.

### Hip Hop

Ms. Kim, brings us “soul” with Hip Hop. For children who have had some dance experience, Hip Hop will explore some cool moves. The class will focus on isolation of movements while moving different body parts concurrently, but in different ways. Great exercise, fun, fun, fun and a fantastic way to use all of that extra energy!

# Contemporary

Contemporary dance is a style of expressive dance that combines elements of several dance genres including modern, jazz, lyrical and classical ballet. Contemporary dancers strive to connect the mind and the body through fluid dance movements.

# Tap

Children will learn the basic tap steps (shuffles, flaps, slides and more) without music – allowing their feet and bodies to literally become percussion instruments. Eventually learning to have their feet accompany music, they will create music and dance that will have them dancing in the streets!

# Ballet

The perfect start for aspiring dancers! We'll begin with the basic ballet positions and practice the techniques of classical ballet.

With each class, students will learn more and more ballet vocabulary and gain a deeper appreciation for this art form by learning more about ballet moves, positions, poses. Striving for more self confidence with each lesson, our dancers will take their skills to the stage showing off their creativity.

**A Note on What to wear:** Leotards with tights or close fitting leggings and shirts are suggested for all dance classes. Children should have jazz oxfords or sneakers for acrobatics and hip hop, ballet slippers for ballet and **MUST** have tap shoes for tap. If you have any questions about where to buy dance clothing or shoes, please contact Ms. Kim.

# Soccer

In this super fun, energizing class, we will be teaching the basics of one of Garden School's favorite sports...soccer! Dribbling, passing, shooting and goal-keeping will be just some of the skills students will build on. Have fun while building power, speed and the agility needed to score big in the future...all while having fun and making friends!

## Ologies with Mr. Ortiz

The suffix “-ology” is commonly used to denote a field of study. In this afterschool class, we will explore many different fields of science. Our very own Mr. Ortiz, will explore a new field each week. For example one week may be Herpetology (Study of reptiles and amphibians) and another may be Climatology (Study of climate). During his time at the American Museum of Natural History, Mr. Ortiz learned to appreciate other fields of science I didn't get to study in school. By giving tours and teaching students of all ages, I got to share this appreciation and spark an interest in many different topics. Now, I get to share that same appreciation with the wonderful students at the Garden School!
